Android Developer | 1+ Years of Experience | Kotlin, Jetpack Compose, MVVM
Results-oriented Android Developer with expertise in Kotlin, Jetpack Compose, and MVVM architecture. Experienced in developing, optimizing, and debugging mobile applications with a focus on performance and user experience. Adept at collaborating with teams to deliver scalable and efficient applications.

Experience

Android Developer Intern
ZWARE SOFT (Remote) | July 2024 – January 2025

- Developed and optimized **5+ key features** in Android applications, including user authentication, database integration, and UI enhancements, improving app performance by **20%**.
- Collaborated with a remote team of **4 developers**, contributing to the successful delivery of **2 project milestones ahead of schedule**.
- Reduced **app crash rates by 30%** through effective debugging and rigorous testing across multiple devices and configurations.
- Wrote and maintained **1,000+ lines of clean, reusable Kotlin code**, adhering to **MVVM architecture** and industry best practices.
- Streamlined data storage processes using **Room Database**, cutting data retrieval time by **15%**.

Android Developer
ScareMe App | April 2024 – June 2024

- Developed **ScareMe**, a Tinder-like mobile application for connecting horror enthusiasts.
- Implemented **personalized matching, swipe-based discovery, and direct messaging** features.
- Technologies: **Kotlin, Android Studio, REST API, Retrofit, MVVM, ViewModel, Activity Lifecycle**.
- Achievements: Successfully designed and developed a fully functional mobile app with an engaging UI and interactive experience.

English Teacher
Poliglot Language School | 2023

- Instructed a diverse range of students, achieving a **15% improvement** in overall language proficiency.
- Developed and implemented engaging lesson plans, leading to a **20% increase** in student participation.

Technical Skills

- **Languages:** Kotlin, Java, C++/C
- **Android Development:** Android Studio, Jetpack Compose, Retrofit, Room Database, Android SDK, Dagger Hilt, SQLite, RESTful APIs, App Performance Optimization, Debugging
- **Version Control:** Git
- **Other Skills:** SQL, Algorithm Design, Problem-Solving, Debugging, Team Collaboration, Time Management, Critical Thinking

---

Projects

GeminiChatApp (GitHub)

- Built a **conversational AI chatbot app** using **Google's Gemini API** for advanced text and image interactions.
- Implemented **Firebase Authentication**, secure API handling, and a **dark-themed UI**.
- Technologies: **Kotlin, Jetpack Compose, Google Gemini API, Firebase, MVVM, Room Database**.
- Achievements: Successfully deployed an AI-integrated chatbot, enhancing user engagement with natural language processing.

ScareMe App (GitHub)

- Developed a **Tinder-like mobile app** for horror enthusiasts with **swipe-based matching, messaging, and user profile management**.
- Technologies: **Kotlin, Android Studio, Retrofit, MVVM, ViewModel**.
- Achievements: Delivered a fully functional app enhancing user experience in a niche market.

Education
Tomsk State University
B.S. Software Engineering (September 2022 - May 2026)
Cumulative GPA: **4.4/5.0**
Scholarship Student

Extra-Curriculars

- **Manager, International Students Management Club**
- **Volunteered at university events**
- **Mini Hackathon (1st Prize Winner)** – Organized by GNIOT TECH CLUB (2022)

Languages

- **Hindi** (Native)
- **English** (Fluent)
- **Urdu** (Fluent)
- **Russian** (Intermediate)
